

# FIRST NATIONS MAJOR PROJECTS COALITION

## Summary of FNMPC's Service Achievements

# ENVIRONMENT

Since 2019, FNMPC has leveraged funding from the Impact Assessment Agency to co-develop environmental tools and processes that help bring Indigenous knowledge to the forefront of impact assessment.

These tools have been deployed on 2 major projects, 1 which resulted in FNMPC helping our members double their capacity funding agreements with the project proponent for impact assessment

FNMPC has taken our tools across the country, making them accessible nationally for use by Indigenous nations

Over 180 Indigenous participants have attended at least one FNMPC impact assessment workshop or training session.

# SMALL INVESTMENT = BIG RESULTS

A core objective of FNMPC is to support its members in the advancement of their project priorities. This section demonstrates statistics of how FNMPC can multiply sponsor/funder investment towards member participation/capacity in major projects.

FNMPC's membership continues to grow. We now have more than 145 members.

FNMPC is currently providing support for 12 major projects.

Each of these 12 projects has a First Nation equity investment component and a portfolio exceeding a combined total capital cost of over \$45 billion.

FNMPC's members benefit from various educational and capacity building tools, timely economic research, and innovative solutions in overcoming barriers to economic participation.

85% of FNMPC's project portfolio focuses on the net zero energy transition.

Since 2019, using NRCAN's INRP funding, FNMPC has published over 12 reports focusing on areas of economic interest to Indigenous nations.

Over the last 5 years, Natural Resources Canada's investment in FNMPC has been multiplied by 42x through our service delivery to our First Nation members.

**\$8.9 million**

Since 2019, FNMPC has used approximately \$8.5 million in NRCAN INRP funding for our operations comprehensively.

**\$43.4 million**

\$43.4 million in grants and contributions leveraged direct to our First Nation members to further business capacity and informed decision making

**42X**  
THE ORIGINAL INVESTMENT

**\$316 million**

\$316 million in direct economic participation benefits in major projects (including equity)

**\$359.4 million**

Based on the initial \$8.5 million in federal funding, FNMPC services have unlocked \$359.4 million in economic benefits to FNMPC members.

These significant results demonstrate the outcomes that are possible when governments support strategic investments in the business capacity First Nations need to make informed business decisions about our participation in major projects that impact our lands.
